

## Tasks

- Combine windows 7 / 8 changes into one method so it can be changed with a single line
  - Jeremiah
- Clean up index page javascript
  - Ari
- Add and Change member info
  - Ari
- ~~ID Renumbering!~~
  - Jeremiah
- ~~Remove Section / Requirement~~
  - Anyone
- Test result & approved by need to save - how do comments relate to this?
  - Add date to this?
  - Kevin, Jeremiah, Pete
- TESTING
  - EVERYONE!!!!(But mostly Kevin and Peter)
  - if a test fails, and you can't fix it, add it here!

## Bugs

- cannot click first section more than once. javascript error
- add member on splash screen gives javascript error
- browsing a project and clicking a working project, then clicking proceed to project gives javascript error
- size of editable Para's textarea needs to fit to content. consult jquery for this because css isn't giving us desirable results
- change title does not work
- adding to test case is a mess
  - specifics go here
- Comments don't save
- Add section doesnt add index to Para
  - Add section above / below - not working on just created project?
  - Add reference - styling error - XSL's off
  - Test case references - should show test results
  - Reference right click menu - go to this reference
  - RTM back button on top

## Wishful Features

- Allow user to add and select stylesheets to be used for editor and exporting
  - Jeremiah
- When adding image copy into Images folder
  - Anyone can try this, shouldn't be too difficult

**Deliverable**

- Application and source files
- Whatever you can give me
  - Requirements Document
  - Use case
  - Test Case
- User Guide
- Meeting log if we can
- Code history if its not bad
- Get Michael his books!
